

Thank you in advance for reading my comment.

I am writing to let you know that 90.7 fm serves the public interest of Minneapolis by providing listening enjoyment for many of my friends.

If KLove were displaced by another station, I would definitely be dissapointed. I don't actively support this station financially, but I know those who do. These people would have to resort to other stations even though they have supported this station as well as enjoyed listening to it.

KLove definitely serves the public interest as it gives uplifting programming that even children can listen to on a daily basis. 24 hours a day this station serves the public with news and interesting programming, especially great music.

Please don't let KLove 90.7 be taken away.
